**BACKGROUND:** Secretary Raimondo has been asked by the National Security Council to serve as the U.S. Ministerial
representative and head of delegation for the United States at the Group of Seven (G7) Digital & Tech Ministerial Meeting. Oliver Dowden, UK Secretary of State for Digital, Culture, Media and Sport (DCMS), will chair the meeting as the UK currently holds the G7 Presidency. The meeting affords the United States the opportunity to advance our interests while working with our closest allies and partners on digital economy policy issues. Three of the six priority areas to be covered at the Ministerial are core to Commerce’s mission, including data flows, telecom diversification, and digital technical standards. The Secretary will be joined by officials from the White House, Department of State, and other agencies to advance U.S. interests and highlight cooperation with other G7 members on digital and tech issues.

PURPOSE OF EVENT: Advance U.S. government positions on digital economy policy issues and adopt a G7 Digital & Tech Minister’s Declaration that has been undergoing negotiation through the G7 Digital & Tech working group.

PARTICIPANTS: Ministers from other G7 members - the United Kingdom, Canada, France, Germany, Italy, Japan, and the European Union - are invited to attend. Some meetings will also include Ministers from Australia, India, and the Republic of Korea.
